EDUCATION

University of Ilorin,   **December 2022 – Present**

Bachelor of Science, Information Technology   Kwara, Nigeria

Relevant Coursework: Human Computer Interaction, Software Development Lifecycle, System Analysis and Design, Database Development and Management

PROFESSIONAL EXPERIENCE

DevLeague   **August 2023 - Present**

Frontend Developer   Contract

- Developed and integrated a payment system on the webpage, facilitating smooth and secure transactions for a growing user base.
- Designed and built an administrative panel that allows for the creation, editing, and deletion of events, improving administrative efficiency and reducing manual management tasks by 60%.
- Optimized the application's performance, achieving a 30% faster load time and a more intuitive user experience by refining code and enhancing UI/UX design.

CISSA Software Team   **November 2023 – July 2024**

Frontend Developer   Remote

- Worked with a team of 4 frontend developers to design and launch an anonymous chat application, facilitating secure communication for over 3000 faculty members.
- Developed and integrated essential features such as real-time messaging and anonymous user interactions, improving communication efficiency and engagement by 40%.
- Enhanced frontend performance, reducing page load times by 25% and ensuring a smoother user experience, which led to a 30% increase in user satisfaction based on feedback.

TECHNOLOGY SUMMARY

FRONTEND DEVELOPMENT: HTML, CSS, NextJS, ReactJS, Redux, React Query,

BACKEND DEVELOPMENT: NodeJS, ExpressJS, TypeScript

DATABASES: MongoDB, SQL (MySQL)

PLATFORMS: Firebase, Supabase, Netlify, Vercel, CPanel

ARTIFICIAL INTELIGENCE: Google AI, OpenAI

TEST AND DEBUGGING: Postman, Jest, Mocha

DESIGN & COLLABORATION: Git & Github, Jira, Slack, Figma

UI LIBRARIES: Tailwind CSS, Sass, Materialize CSS, Bootstrap, Material UI, Framer-Motion.

SOFT SKILLS: Critical Thinking, Teamwork, Communication, Leadership, Versatility

PROJECTS

- **iReporter:** A full stack application that allow users to make a report on things that needs government intervention.
  Built with: ReactJS, NodeJS, ExpressJS, MongoBD, Google Mail Services: https://ireporterr.vercel.app
- **Shortly:** A web application designed to simplify and shorten URLs.
  Built with: Reactjs, Sass, shrtco Api: https://linkshorter.netlify.app
- **Advicerr:** A web application designed to provide users with random, insightful advice.
  Built with Reactjs, Sass: https://advicerr.netlify.app
